# 1 Introduction

-

## 1.1 Situation

-

## 1.2 Vision

-

## 1.3 Development plan

-

## 1.4 Supplementary documentation

Reference	Description	Location

## 1.5 Revision history

Revision	Description	Published (yyyy-mm-dd)	Author

## 2 Solution overview

-

### 3 Processes

-

Process	Description	Functionality

-

## 4 Information

-

## **5 Design constraints**

### **5.1 Life expectancy**

-

### **5.2 Coexistence**

-

### **5.3 Transition**

-

### **5.4 Compatibility**

-

### **5.5 Policies**

-

### **5.6 Standards**

-

### **5.7 Technologies**

-

## 6 Design principles

-

## **7 Design concerns**

**7.1 Auditability**

-

**7.2 Compliance**

-

**7.3 Security**

-

**7.4 Integrity**

-

**7.5 Authentication**

-

**7.6 Authorization**

-

**7.7 Non-repudiation**

-

**7.8 Usability**

-

**7.9 Localization**

-

**7.10 Concurrency**

-

**7.11 Capacity**

-

**7.12 Performance**

-

**7.13 Observability**

-

**7.14 Scalability**

-

**7.15 Availability**

-

**7.16 Testability**

-

**7.17 Operability**

-

**7.18 Recoverability**

-

## **8 High-level design**

### **8.1 Components**

-

### **8.2 User interaction**

-

### **8.3 Integrations**

-

### **8.4 Scheduled jobs**

-

## 9 Development

-

## 10 Deployment

-

## 11 Testing

-

## **12 Operations**

### **12.1 Installation**

-

### **12.2 Configuration**

-

### **12.3 Startup**

-

### **12.4 Shutdown**

-

### **12.5 Recovery**

-

### **12.6 Monitoring**

-

### **12.7 Control**

-

### **12.8 Reoccurring tasks**

-

### **12.9 Support**

-

### **12.10 Incident handling**

-

### **12.11 Maintenance**

-

### **12.12 Reporting**

-

## 13 Assessment

-

## 14 Roadmap

-
